ONLY 350 ACRES

Remaining Unsold of the Hickey Tract, Two Miles East of Loomis, Surveyed and Subdivided into 20-acre Tracts.

THE SOIL IS DEEP AND RICH, IS MOSTLY cleared, which alone costs from $15 to $30 per acre, consequently adding that amount to these lands, aside from time required in clearing, the land being ready to cultivate. That portion uncleared has but little underbrush. The wood will pay expense of clearing. Mostly level; no waste land; every acre can be utilized; several springs in various parts of the tract; all can be brought under irrigation, the ditch adjoining the land, although the trees in this vicinity do better without it, owing to the richness of the soil. Price, $30 to $50 per acre, according to choice. Terms, one-third cash; deferred payments, 6½ per cent. per annum. Mr. Thomas Chatfield, the owner, is always upon the land, and will take pleasure in taking the intending purchaser to and from the depot at Loomis. The earliest fruits this year were produced in this vicinity.

Lands in all parts of Central and Northern California for sale. Send for Catalogue.

DOMESTIC NEWS.

Proceedings in Congress.

WASHINGTON, July 12th.—Under the call of States the following bills, etc., were introduced and referred:

By Mr. Wheeler of Alabama—Declaring it to be the sense of the House that Congress should not adjourn until it has enacted a law appropriating a portion of the surplus money in the treasury to assist the States in the great work of education.

By Mr. Robertson of Kentucky—Appropriating $10,000 for the erection of a granite shaft to mark the birthplace of Abraham Lincoln.

By Mr. Lovering of Massachusetts—To abolish the importation of Italian or other laborers under contract, and held to involuntary servitude in the United States.

Mr. Voorhees of Washington Territory, from the Committee on Public Lands, reported a bill permitting all persons who have lost homestead rights to make new entries.

The Committee on Appropriations recommends that the amendment relative to the publication of the records of the war of the rebellion and providing that evidence taken by the Court-martial on the trial of Fitz John Porter, together with the report thereon by Judge Holt to President Lincoln, shall be printed in connection with the matter already printed concerning the proceedings of said Court-martial. The Republicans desired to concur in the Senate amendment without further amendment, and a motion to this effect having been defeated, they manifested some disposition to filibuster, but finally allowed the recommendation of the committee to be agreed to, with the understanding that an aye and no vote should be taken upon it in the House.

The Senate amendment increasing from $4,000 to $5,000 the salaries of the Commissioners of Pensions and Patents was concurred in.

The consideration of amendments was completed in Committee of the Whole, but pending action by the House an adjournment was taken.

In the Senate a bill was passed to credit the State of Oregon with $12,386 for ordnance and ordnance stores.

Among bills which were objected to and which went over without action was the following: To equalize the bounties of soldiers, sailors and marines of the late war (Logan's bill).

The Senate then resumed consideration of the river and harbor appropriation bill, the pending question being on the Hennepin Canal and Michigan and Illinois Canal amendment. Agreed to—yeas 31, nays 22.

In the Senate an amendment to the item of $40,000 for improving the Sacramento and Feather rivers, California, was to strike out some lines directing legal proceedings to prevent the washing, sluicing, dumping or discharging debris caused by hydraulic mining. This was discussed at some length by Stanford, Hearst, Dolph, Edmunds and Ingalls. Stanford and Hearst favored the amendment of the lines proposed to be struck out, while Edmunds contended that Congress had no power to legislate as to these rivers, as the State of California had exclusive jurisdiction over them. Stanford explained that if this practice of dumping debris into the Sacramento was not prevented the harbor of San Francisco would be ruined, and he asked whether the General Government had not the right to interfere and prevent it. No vote was had on the amendment, but McMillan gave notice that he would ask the Senate to dispose of the bill to-morrow.

Mexican Pension Bill Passed.

WASHINGTON, July 12th.—In the House to-day the bill granting pensions to soldiers and sailors of the Mexican war having been reached on the calendar, an objection [illegible] him by Wilson of Iowa, and a statement by Harris that no Democratic Senator would consume any time in discussion, the objection was withdrawn. The bill was then considered and passed.

The bill as passed directs the Secretary of the Interior to place on the pension roll the names of surviving officers and enlisted men (including marines, militia and volunteers who, being duly enlisted, actually served sixty days with the army or navy of the United States in Mexico, or on the coasts or frontier thereof, or on the routes thereto, in the war with that nation, or who were actively engaged in battle in said war and were honorably discharged) or their surviving widows. It provides only for such widows as have not yet married, and provided that every such officer, enlisted man, or widow who is or may become sixty years of age, and who is or who may become subject to any disability or dependence equivalent to some cause recognized by pension laws as a sufficient reason for an allowance of a pension, shall be entitled to the benefit of the Act: except where such disability or dependency was incurred in aiding or abetting the late rebellion. Pensions are to be $8 per month, payable only after the passage of the Act. The law is not applicable to persons already receiving pensions at or over that rate, and where persons (entitled under this law) are already receiving pensions less than $8 per month, their pensions shall only be $8.

Postmasters for California.

WASHINGTON, July 12th.—The following Postmasters have been appointed for California: R. H. Lewis at Byron, Contra Costa county; Mrs. P. C. Murphy at Concord, Contra Costa county; J. C. Hale at Knoxville, Napa county; T. J. Davis at San Emigdio, Kern county; A. C. Miller at Suisun, Solano county; H. W. Bishop at Belmont, San Mateo county; John D. Perkins at Ione, Amador county; E. M. Comstock at Tallac, El Dorado county.

Watts Pardoned.

WASHINGTON, July 12th.—The President to-day notified Congressman Morrow that he has pardoned William Watts, of California, who was under sentence for beating and wounding a sailor.

Hoadly for the Cabinet.

WASHINGTON, July 12th.—Among the current gossip is a rumor to the effect that any changes in the Cabinet will be likely to bring ex-Governor Hoadly, of Ohio, to the front. Ohio Democrats say that when Cleveland last year induced Governor Hoadly to be a candidate for re-election, against his own wishes, he held out this idea to him.

Redding and Bieber Mail.

WASHINGTON, July 12th.—Congressman Morrow to-day received from the Postoffice Department a copy of an order establishing a daily mail service between Redding and Bieber.

The Political Guillotine.

WASHINGTON, July 12th.—From official reports on file at the White House, it appears that up to date the President has sent to the Senate 2,427 nominations. Of this number the Senate has rejected only seventeen.

Money Thrown Away.

WASHINGTON, July 12th.—Senator Warner Miller thinks that the influence of Reall, the man engineering the oleomargarine bill, is unnecessary to secure the passage of the measure, and that every dollar which has been contributed to push the bill through Congress has been thrown away. Not a single cent of it was necessary. The farmers and dairymen who have put up money have simply been mulcted by Reall.

Against Hydraulic Mining.

WASHINGTON, July 12th.—In the Senate to-day the Senate bill to prevent obstructive and injurious deposits within the harbor and adjacent waters of New York city, by dumping or otherwise, was taken up at the request of Miller and passed on motion of Hoar.

What Shall Congress do with the Surplus Coin?

WASHINGTON, July 12th.—By the action of the House on Friday last, the special order for to-morrow is the joint resolution by Morrison to apply the surplus in the Treasury, in excess of $100,000,000, upon the payment of the interest-bearing debt in sums not less than $10,000,000 per month. The present surplus is about $175,000,000 after retaining $100,000,000 to hold greenbacks steady. There would be under this resolution $75,000,000 to be applied toward extinguishing the public debt. There is a strong sentiment in the House, on both sides, in favor of the proposition to reduce the surplus and the debt. Opinions differ, however, as to where the safety line should be drawn.

The Eastern Turf—Ashe's Binnette Breaks a Record.

CHICAGO, July 12th.—This is an extra day's racing. The weather is good and the track fair. The attendance is not very large, owing to the want of some crack horses starting.

The first race was a purse event for two-year-olds, dash of six furlongs. There were nine starters, and Sunbeam won, Alleghany second, Truant third. Time, 1:17¼.

The second race was a dash of seven furlongs, with eight starters. Warranton won, Cuban Queen second, Nora M. third. Time, 1:28½—fast. The best time on record is 1:27½.

The third race was a dash of one mile and a quarter. There were twelve starters, among them Porter Ashe's Binnette and Johnson's Jim Douglas—California horses. Binnette won in 2:07½, breaking the record one-quarter of a second, Jim Guest second, Buchanan third.

BRIGHTON BEACH, July 12th.—The three-quarters of a mile, Marsh Redon won, Burgoman second, Belle B. third. Time, 1:17¼.

The next, three-quarters of a mile, Biscuit won, Lord Coleridge second, Huron third. Time, 1:17½.

The selling race, seven-eighths of a mile, Emmet won, Beaconsfield second, Brunswick third. Time, 1:30.

The purse stake, three-quarters of a mile, Bill Brien won, Frolic second, Hazard third. Time, 1:16½.

July Cup, all ages, three-quarters of a mile, Barnum won, Nettle and Compensation third. Time, 3:08¾.

Selling race, one and one-eighth miles, Ernest won, Malaria second, Woodflower third. Time, 1:57½.

The attendance was very large. The sensation of the day was the winning of the fourth race by Bill Brien, who paid to his backers $341 10 for $5.

Forecasts for To-day's Races.

NEW YORK, July 12th.—The forecasts for Monmouth Park to-morrow are: First race—Portland first, Fletch Taylor second. Second race—Oneka first, Queen Elizabeth second. Third race—Herbert first, Florence E. second. Fourth race—East Lynn first, Walter H. second. Fifth race—McBowling first, Phil Lewis second. Sixth race—Palonca first, Sandoval second.

The forecasts for Chicago to-morrow are: First race—Pearl Jennings first, Billy Gilmore second. Second race—Mollie McCarthy's Last first, Clonee second. Third race—Lizzie Krepps first, Jim Gore second. Fourth race—Ailee first, Virgie Hearne second. Fifth race—Beaconsfield first, Modesty second.

The California Trotter, Arab.

PITTSBURG, July 12th.—The great California gelding, Arab, is stabled at the Driving Park, and is slowly getting on edge. His fastest mile, so far, has been in 2:23, but he goes so easily and his gait is so clean and frictionless that experts are inclined to think that a great deal faster time than that must be made to beat him. Arab will start first this season in the 2:17 class, at Detroit, and will come down the circuit. Before long he and Harry Wilkes will trot against each other in a match. Hickok says about St. Julian, the old king: "He is in a paddock near Santa Rosa, Cal., and has not done with the track yet. He can trot his mile in 2:15 to-morrow."

Transcontinental Pool Matters.

NEW YORK, July 12th.—Again rumors of the speedy settlement of the transcontinental pool troubles are being industriously circulated among railroad men and shippers. The only foundation for these rumors seem to be to-day's meeting of the Directors of the Pacific Mail and of the Panama Company, to confer about their regulations. It is now definitely known that Huntington offered the Pacific Mail people $85,000 as a monthly subsidy, but it was not to go into effect for two months, for the reason that no freight for California was offering, or likely to offer. This proposition was emphatically refused, the Pacific Mail demanding that the subsidy be paid at once.

Gilder's North Pole Trip.

NEW YORK, July 12th.—[illegible] the *Herald* representative, will start this evening on an exploring expedition of the unknown regions to the north of the American continent. He will take passage at New London, Conn., on the northern whaler Erie, which will lay him on the Cumberland inlet, where he hopes, by a bold dash, to reach the most northern latitude yet touched, and if possible plant the American standard on the North Pole. Colonel Gilder accompanied Lieutenant Schwatka in his search for the remains of the Sir John Franklin expedition. William Griffiths is the only white man who accompanies him. Gilder will take with him a number of firearms and provisions for one year. They propose to live principally on fish and game. Gilder expects to find an open sea to some extent, but not navigable.

Diseased Fruit in the East.

NEW YORK, July 12th.—The *Times* says: "The peach season has opened in Delaware, Maryland and New Jersey, with prematurely ripened fruit. This fruit comes from diseased trees, and as the trees from which they come are unhealthy, the fruit itself can hardly be wholesome. Most of the fruit that will come this week from Delaware will be from diseased trees of very early varieties, such as Early Alexanders, June, Early Beatrice, Early Louise, Early Rivers, and Hale's Early. None of those varieties of peaches are very desirable, and diseased fruit from them should never be allowed to be sold in the market. Doubtless much of it will be wholesaled for not more than 75 cents per basket.

Proposed Consolidation.

NEW YORK, July 12th.—An old city reform idea, much discussed anterior to the civil war by local statesmen, has been revived in some of the magazines and daily journals, namely, the consolidation of New York, Kings, Richmond and Westchester counties, into one and the same municipality under the name of the City of Manhattan. The scheme has for its purpose the reduction of taxation and the securing of more efficient administration by consolidating the several disjointed governments into one.

Tanners on a Strike.

NEW YORK, July 12th.—The *Post's* Boston special says: Four thousand tanners in Salem and Lynn struck this morning, in consequence of the refusal on the part of employers to grant shorter hours. It is the largest strike that has ever taken place in New England. Great excitement prevails in the leather markets here to-day because of an order from Salem and Lynn to sell no more leather until the strike is settled.

The Imprisoned American Released at Last.

EL PASO, July 12th.—Depot agent Merkley, of Chihuahua, Mexico, about whom so much has recently been said concerning his arbitrary and unjust incarceration for striking a native, has at last been released from prison. He was set at liberty yesterday on a bond of nearly a thousand dollars. He had been in the extremely filthy prison at Chihuahua for several weeks, and while demanding either a trial or the privilege of bail every day, he was constantly refused, until at last the authorities saw that the prisoner had suffered sufficiently, bodily and mentally. Mexican justice to Americans is like the wrath of God—it cometh slowly.

A Raid on Gamblers.

LONG BRANCH, July 12th.—The police authorities raided Philip Daly's Pennsylvania Club again at midnight last night. Daly and five players were arrested. Employes of the house were made prisoners, and in the scuffle officer Amos Earle received a terrible blow on the head. Officer Henry Seable had his club taken from him. Daly was released on his own recognizance, to await examination. John Daly's club-house on Ocean avenue was also raided. The proprietor was bailed.

A Commissioner in Trouble.

NEW YORK, July 12th.—Commissioner of Public Works, Rollin M. Squire, has been notified by the Commissioner of Public Accounts that if he does not produce the books and papers of his department, including the pay-rolls, he will be arrested for contempt. At the same time there are reports at the City Hall that in the course of the coming week there will be many removals in the department in the interest of economy. Several bureaus are to be cut off altogether, and a large reduction made in the clerical force of those that will be allowed to remain. It is believed, however, that this is a spasmodic attempt at reform, because Squire is thoroughly alarmed at the coming investigation. It is asserted that an examination of the books will show glaring frauds and discrepancies.

A Horrible Deed Committed Through Jealousy.

PITTSBURG, July 12th.—Some time ago the wife of John M. Duvall, living at Mount Washington, obtained a divorce, and, on the same day, married Jacob H. Jones. Duvall made no objection to the marriage. This evening Duvall went to Jones and invited him, on pretense of a friendly visit, to his house, which stands near the brow of the hill. In a stroll about the premises, Duvall led Jones back of an old barn, which stands near by, and when safe from observation seized a can of vitriol, which he had concealed there for the purpose, and threw the liquid in the face of his victim, who was totally disarmed by the apparent friendship of Duvall, and went unprepared for such a murderous onslaught. Jones fell to the ground writhing in agony, while his assailant stood by and gloated over his horrible work. After watching the sufferings of Jones until satisfied, Duvall went to the edge of the cliff, where there is a steep descent of 300 feet, and, shooting himself through the head, fell headlong to the bottom. He was picked up and carried to a house near by, where he is still lying insensible, with no hope of recovery. Jones is in a very serious condition, and if he recovers he will be badly disfigured and totally blind.

A Railroad Sold.

DENVER, July 12th.—The property of the Denver and Rio Grande Railway Company was sold to-day by Louis H. Meyer and John R. Stewart, Trustees of the consolidated mortgage, who had been appointed special Commissioners. The property was purchased by George Coppell, Arnold March, Robert B. Milburn, Theodore H. A. Tromp and John J. Hadiger, for $15,000,000. This bid was in reality a nominal one, as the property was purchased for the benefit of the bondholders and stockholders.

The British Elections.

LONDON, July 12th.—Neither party has made any gains in the Parliamentary elections to-day. R. T. O'Neill (Conservative) is elected for Middle Antrim by a vote of 4,624 against 932 for McKelvy, his Parnellite opponent. In the last election the district was given to O'Neil. Lord Ernest Hamilton (Conservative) is re-elected for North Tyrone over J. O. Wylie (Liberal) by 3,229 to 2,877. In the last election John Dillon unsuccessfully contested this district against Lord Hamilton. The vote then stood 3,345 to 2,922, 171 more than now. J. O'Doherty (Parnellite) has been elected for North Donegal over Lieutenant-Colonel H. H. A. Stewart by a vote of 4,263 to 94. The same candidates contested the district at the last election when they obtained, respectively, 4,597 and 952 votes. The Tories now have elected 291 candidates, the Unionists 66, the Liberals 151 and Parnellites 74.

What the British Conservatives Propose to Do.

LONDON, July 12th.—Negotiations between Lord Hartington and Salisbury are in progress. It is reported that Lord Hartington has pledged himself to support Lord Salisbury's local government bill and to reject all approaches of Mr. Gladstone. Thousands of Nationalists surrounded the building, and many placards were posted with the inscription: "We will pay your Orange dogs in Irish coin one long debt, which Ireland owes all braggarts of the Boyne."

At Armagh Major Saunders presided over a gathering of 2,000 enthusiastic Orangemen. There was afterward a procession, the route of which was lined by 600 police and soldiers. Business was suspended.

Criticism of Americans.

LONDON, July 12th.—The Duke of Argyle publishes in to-day's *Times* a letter concerning the United States and Ireland. He says that, despite national sympathies, there is profound ignorance in England and the United States respecting each other's Constitutions. He admits his own ignorance, at the beginning of the American civil war, in sympathizing with the South. He says the sympathy of Americans for the Irish in their present struggle arises from an error of thinking of Ireland as an American State, and that the English are withholding from Ireland powers similar to those possessed by the different States of the American Union.

Another British Scandal.

LONDON, July 12th.—Baron P. de Worms, who was parliamentary secretary of the Board of Trade in Salisbury's Cabinet, has brought an action for divorce against his wife on the ground of adultery. He alleges that his wife made frequent visits to Tyrol alone. He suspected nothing at first because she is a native of Austria, being a daughter of Baron Von Todesco, of Vienna, but he discovered that the object of these visits was neither patriotic nor innocent, but to meet in criminal intercourse Baron Meron, who made appointments for her to secretly receive him there. Baron de Worms then secured evidence sufficient to base his complaint on and make the Baron surrender the correspondence. It is stated that Baron Meron and Baroness de Worms have concluded not to enter any defense. Baron de Worms was the Tory member for the Toxteth division of Liverpool in the late House of Commons. He is 40 years of age, and is a hereditary Baron of the Austrian Empire. His wife is a handsome, stately woman, possessing a voluptuous form, a leader of fashionable circles, and a general social favorite.

He Couldn't Kill the King.

ROME, July 12th.—A Sergeant of the infantry garrison at Monza attempted to-day to kill himself with a rifle. Among his effects was found a letter addressed to the King, stating that he had been deputed by a secret society to kill the King, but preferred to die himself, and commending his mother to the King's care. When taken before a magistrate he adhered to the statements in his letter, but refused to divulge the name of the society. King Humbert, on reading the letter, said that man must be a lunatic who wished to create a sensation by committing suicide.

The report that one man found a nugget weighing 700 oz. is causing great excitement amongst the passengers on board the Victoria and Afghan. New South Wales people are strongly advised not to rush to the diggings too impetuously, or much misery and privation will ensue.

THE NOVA SCOTIA SECESSION.

A good deal is being said about "the secession" of Nova Scotia. In the recent election Premier Fielding led a party that had for its motto complete separation of the maritime countries of Nova Scotia, New Brunswick and Prince Edward's Island from the Dominion. It must not be assumed, however, that the vote for separation meant, as a matter of course, a request to the United States to annex these provinces. On the contrary, it meant a demand for an independent government, free from any domination from the mainland. It meant a closer bond of union between the outlying sea provinces. The Halifax *Chronicle*, an admitted exponent of the opinion of the Liberal party, declares that the trade relations of the maritime provinces with the upper or mainland provinces are artificial, strained and one-sided. It adds that for every dollar's worth of goods sent to the upper provinces (the Canadas), a hundred dollars' worth of goods come the other way. It favors a [illegible] purpose of setting up housekeeping for themselves." The same journal adds that if New Brunswick and Prince Edward's Island decline to unite with Nova Scotia, the latter must "paddle its own canoe." It winds up with the statement that "the confederation has been a curse to the province." The Quebec *Chronicle*, Conservative, scouts the idea of secession amounting to anything. "Repeal has prevailed at the polls, but repeal will not ensue." The Ottawa *Free Press*, Liberal, says separation pure and simple was the issue in the late election, and was decided in the affirmative, and this, it takes it, is chargeable solely to the bungling administration of Sir John Macdonald, and adds that there is no half-way house between the disintegration of confederation and continued indorsation of the Macdonald Government by the people of Canada. The *Manitoban*, Conservative, says the hostility of the people of Nova Scotia was stirred up by designing Grit demagogues, and that it will end as it begins, in Grit mouthings. If, however, it shows signs of development into something more dangerous, it must be put an end to summarily. "Nova Scotia must stay in the union, though every Grit in Canada should swear the opposite." The Manitoba *Free Press*, Liberal, on the other hand, says the people of Nova Scotia were cajoled and deceived into the confederation. It adds that "there are hollow-sounding idiots abroad in the land who will make this an occasion for rending heaven with shrieks about disloyalty, forgetting that loyalty to justice and right is supreme, and that loyalty to deceivers and tyrants and corruptionists is unquestioning, spaniel-like obsequiousness of the most detestable shape." A portion of the seceders of the new Nova Scotia members of the Parliament boldly favor and preach union with the United States, but the people are not pronounced for that as yet, though discussing it. The most of the Eastern press rather favor annexation, but there has been no means as yet of ascertaining what the views of our people are upon the subject. New England will certainly favor annexation as the most satisfactory settlement of the fisheries question. Probably the conservative sentiment is that it will be time enough to talk of that after the sea provinces have tried and tired of the lesser union and which England must, in good conscience, concede to such as ask for it. It may be well doubted if we want these provinces on any terms. We cannot expect to get them without purchase or trouble with England. Much more likely the latter. The mere recognition of the independence of the provinces, if it is asked, is the smallest part in a plan of annexation. The injection of three maritime provinces into our political economy, bringing with them a people wholly unused to our system, and utter strangers to the practical in our methods, would be a disturbing act that cannot be entered upon without the profoundest consideration. What we would gain by the addition is not clear. We have territory enough at present, and difficulty sufficient to manage it. Additions to it ready populated would not of necessity be profitable. Thus far we can see as gain only certain fishing grounds and privileges, some iron and some coal mines, both of which staples we have already in plenty. We would add to our sea coast and the need for its defense and with but one or two fine harbors as compensation. We would add to our Eastern trade, but at heavy cost to our political system.

A WRITER in *Cassell's Magazine* gives a new definition to climate. Here in California we have said it is "that which we have atop o' the soil." But this "Family Doctor" defines it "the normal condition of the atmosphere plus the soil of any place. The atmosphere would be considered according to temperature, its pressure, humidity, and its prevailing winds, the soil according to its substance, its clothing (vegetation, including trees, etc.) and its surroundings, whether hilly or the reverse, and its electric tension." He concludes that we do not always need to go abroad for a change of climate. Changes can generally be made without departure to far distant points. Had he lived in California he would have realized how eminently true this is. We can here choose our change from any point within a radius of ten miles about it. The central truth of this doctor's essay is, that there is need for radical correction of the error so prevalent that change of climate for health benefit must be positive and great. On the contrary, positive injury comes from changes from one extreme to another. Thus, one living in an enervating, warm climate, will reap harm instead of benefit from a change to a stiffly bracing atmosphere. One of a highly nervous and irritable temperament should not change to an exciting climate, nor to a very bracing one. But for the overworked and overworried, those who wish to rebuild, a fairly bracing climate with sea air is suitable, while a relaxing climate is positively injurious. People seek health resorts that theoretically ought to just suit their complaints, but find themselves growing worse, often fail to realize that the fault is not with the place, but in the radical change made.

THE press is myriad; no man can give the time, nor can he accomplish the physical task of reading all the leading papers of the country. But the press is the exponent of public opinion. It does not make it—that is a popular fallacy—it reflects it. The good newspaper notes the drift of public thought. It may endeaver to check it or modify it, or point its error, but never does it create it. Public opinion is an independency, indeed, beginning no man knows exactly where. It is the aggregation of community thought. Good newspapers, therefore, endeavor to present to their readers the reflex of this thought, by liberally quoting from the leading press of the country, convinced that each, in some degree, reflects the local opinion of its environment. Recently, in Washington, a paper has been founded, the sole purpose of which is to epitomize the expressions of leading journals over the whole area of the continent on popular topics, and very appropriately it has been entitled *Public Opinion*. In this weekly issue the thinking men of the country can thus examine the press expressions of the whole continent on matters of politics, religion, education, medicine, railroading, science, music, art, literature, the drama, finance and commerce—all properly classified. Obviously such a paper is one of great usefulness. Having no opinions of its own, if it continues to fairly present expressions on all sides, it will fill a heretofore vacant field, and do very much to enlighten, broaden and unify public opinion.

THE first practical result of the Pan-telephone scandal is the rejection by the [illegible] of Solicitor-General John Goode, of Virginia. He is one of the men who framed the Virginia ordinance of secession, and was a member of the Confederate Congress. He has had attaching to him an unsavory scandal about the use of tissue ballots in securing his election to Congress, and his latest publicity is due to the haste he made to grant leave for a suit to test the validity of the Bell telephone patent at the instance of the Pan-Electric concern, in which Attorney-General Garland, his principal, held a lap full of stock. We are not informed as to the Senate's reasons for rejecting Mr. Goode, but it could have scarcely gone amiss of good reasons even if it had struck out in the dark.

LORD SALISBURY in one of his campaign speeches declared that "the last thing he wished was to draw a large immigration of the pauperized Irish population into England, as it would neither be good for them nor for England." Yet, if we remember aright, this is the same gentleman who wanted to "assist" Irish paupers to come to the United States. As home rule would tend to check emigration, Lord Salisbury and his followers oppose it. What he desires for those of his views is such an output of the Irish population as to leave the land practically free to the undistrusted rule of the landlords.

THE Philadelphia *Press* aptly terms Mr. Morrison's tariff measure "essentially a lazy man's bill." That is, it was knocked together after a fashion and intended only to wheedle voters into support of the Democracy. The *Press* gives the lie to the charges of the Democrats since the defeat of the bill, that Mr. Morrison alone was responsible for it. It is not so. It was as completely and fully a party measure as it is possible to make any bill by the indorsement of leaders. It was the child of the South and West Democracy, and Mr. Carlisle stood sponsor for it.

PROFESSOR NORTON, in the Princeton *Review*, has more nearly than any other approached the true reason for the unhappiness and acerbity of Thomas Carlyle. He believes them to have been the results of mental unrest, arising out of a conviction in Carlyle's mind that he was a mistake—that his vocation should have been in the activities of business, not in the retiracy and quietude of literature and philosophy. He may not have judged well in thus concluding, but all his text shows that he despised, almost, the world of letters.

THERE has at last been an arrest in San Francisco for dealing in indecent literature, libidinous books and shameless pictures. Now, let us see if the officials are equal to the task of securing a conviction. A single failure will break the back of the new-born reform.

THE Brooklyn *Times* answers a whole brigade of Mugwumps with a single shot when it asks, "If Blaine is dead, why do you keep wasting powder on him? What are you afraid of?"

NOTES AND COMMENTS.

S. D. Waterman, of Stockton, is again a candidate for Republican nominee for State Superintendent of Public Instruction.

The exercises of welcome to the members of the eleventh National Convention of American Instructors of Deaf and Dumb are to take place at Berkeley Thursday afternoon. Finely executed invitations to it have been issued.

A boring made by the Prussian Government at Schladebach in search of coal, is said to be the deepest in the world. Its depth is 4,560 feet, its breadth at the bottom is two inches, and at the top eleven inches. The temperature at the bottom is 118 degrees. They must be almost down to Fort Yuma.

The Grass Valley *Tidings* of Saturday has a very elaborate article upon "Politics and Politicians," and concludes it by jumping from knee-deep in political slum into this brief moral: "Plant pear trees and pay enough attention to politics to get good men into office, and this part of the country will not only be saved, but will flourish."

The coal mine recently discovered in northern California is thus referred to by the Millville *Times*: "It is reported that the railroad company has bought a third interest in the recently discovered coal mine on Clover creek, and if, after running a 70-foot tunnel, it continues to hold out as good as present prospects, they will put in a branch railroad."

The Marysville *Daily Appeal* has entered upon its fifty-fourth volume and twenty-seventh year. That places it among the pioneer dailies of the coast, as it also justly stands among the leading ones of the interior. Mr. Smith, the editor of the paper, is also a prominent landmark of journalism in the State, having been engaged as editor upon the *Appeal* since 1864—a period of twenty-six years.

The proprietors of the Grass Valley *Tidings* have issued a special land and home-seekers edition of that paper, which contains much valuable information concerning that section of Nevada county lying in the vicinity of Grass Valley. It is a highly creditable number, and can be perused with profit by those engaged in "home-seeking." Already ample provisions are made to supply all who desire water for irrigation purposes in that part of the upper foothills, and with this added facility the entire foothill region must soon become a paradise.

A method recently introduced into Australia for the extermination of rabbits, with which that country is cursed almost to the destruction of all agriculture, shows the desperation of the people upon the subject. The plan is the importation from Europe of rabbits afflicted with scab, which loath some disease finally ends in death. It is expected the disease will spread rapidly and prove effective. Professor Watson, of Adelaide University, some time ago went to Europe and bought two dozen diseased rabbits for this purpose, but they died on the voyage. He has, however, ordered a fresh supply, which are expected soon to arrive in Adelaide, when they will be turned loose.

There has been much said by the press of northern California favorable to the candidacy of N. D. Rideout for Governor on the Republican ticket. There is no question as to Mr. Rideout's high standing in the estimation of the people of central and northern California, where they have been intimately associated with him for many years, nor of his qualifications for any position to which the people may at any time in the future elect him. He has, however, disposed of the question as to present purposes, by authorizing the Marysville *Appeal* to positively state that he is not a candidate for Gubernatorial honors. Nor will he permit his name to be used in that connection.

The advantageous position occupied by Sacramento as a trade center, and its superiority as to time for filling orders, and as to lower prices to the trade from having less expenses, shorter haul, a day nearer interior and transmontane points, have often been referred to and set forth in the columns of the RECORD-UNION. The San Francisco *Bulletin* of Saturday speaks upon this subject as follows: "Once everything consumed in California entered the Golden Gate. Likewise everything exported from it sought a market by the same route. There was not much, however, to send away besides gold in the early days. Since the advent of the railroad era San Francisco has been reduced to a position very little above that of a railway terminus. It has been drawing simply by reason of its greater wealth and population. But in the importation of goods from the East it stands on no better footing than Sacramento [illegible] trade of these places is concerned, it does not stand on quite so good a footing. The water routes which gave it its original preeminence, at least in domestic commerce, have been dwarfed."

Out of the Fight.

[Colusa Sun, July 10th.]

It seems that N. R. Rideout is out of the fight for the Republican nomination for Governor. What figure does money cut in our politics? Mr. Rideout has shown an executive ability in making for himself a fortune by legitimate business methods; but as it is now understood that no man without money can go into a political contest without using some of it, the "boys" will go after him, and if he does not respond they will call him an old skin-flint and go against him. Mr. Rideout will put in any amount of money for the public interest; he would not mind putting in all that would be necessary for a legitimate campaign, but we know that his principal objection to the race is the above fact, and that he would not buy anybody's influence or vote. Rich men are filling some of our high offices, but it has come to pass that they have to buy their way in. It would be good for the republic if all men, rich and poor, could stand on merit, and money have no influence one way or the other. The Marysville *Appeal* has the following concerning Mr. Rideout's candidacy:

"We are authorized to state that our fellow-townsman, N. D. Rideout, is not in the contest for the Republican nomination for Governor. We make this announcement with regret, and we believe the Republicans of the State, and especially those of the central and northern parts, will receive the announcement with the same feeling. Mr. Rideout's name was brought forward by the press without any knowledge on his part, and we believe that it was received by the people of all classes and all parties with a more unanimous approval than any similar candidacy in the political history of the State. It was believed to mean a sure Republican victory, with a reformed administration of the financial affairs of the State, a consummation devoutly desired by the taxpayers, and an encouragement of the development of the great resources of the whole State. If Mr. Rideout had been seeking the nomination there would have been no difficulty in obtaining it, but his business interests, covering a large portion of the State and absorbing all his time, leave no leisure for that kind of work, even if it were to his taste. It is a lamentable fact that here, as elsewhere, the man must seek the place, rather than the place seek the man. We regret this, and the people of this section regret it. Mr. Rideout has been in this part of the State for more than a third of a century. In that time he has been closely identified with the growth and development of all our industries. For ten years he was a merchant in the front rank of that great business. For twenty years he has been the leading banker of northern and central California. In that capacity his money and his business energy have served to advance every business interest of this part of the coast. He has been a farmer on a large scale, and has given employment to thousands of laborers in tilling the soil. He is a large owner in various extensive and successful manufacturing industries, which employ a large number of skilled and unskilled laborers. He is a principal owner in two transportation lines, which have done incalculable good to the producers and consumers of this section. In all these great enterprises, covering so much time and involving moneyed transactions of millions of dollars, he has won the esteem and confidence of all. There is no single name in this whole State that commands greater confidence and stands higher than that of N. D. Rideout. He has business ability of the highest order, and he would have given the State a thorough business administration. He has a business following all over the State that would have added 10,000 votes to his party at the polls. He comes up from the ranks of those who labor, and he knows the wants and needs of that class, and fully sympathizes with them. In view of all this, it is to be regretted that he is not a candidate for the position of Governor."

HORSFORD'S ACID PHOSPHATE, a valuable remedy for gravel. Dr. T. H. Newland, Jr., St. Louis, Mo., says: "I have used it in diseases of the urinary organs, such as gravel, and particularly spermatorrhœa, with very good results, and think it a very valuable remedy in those diseases."

A Seasonable Story.

Each summer must have its snake story, its thrilling tale of a sea serpent, California lions and grizzly bears. The enterprising press of the country has published all but the bear story, which is left for the *Chronicle* to attend to. The tale we propose to relate is a true one, which comes from the lips of the principal actors, who are residents of Chico.

Dan Brown, the well-known stock man, whose camp is now at Grizzly Flat, near Big Meadows, had an exciting time on Thursday, in company with Lou Richardson. While traveling through the brush, their dogs treed a large grizzly bear—a most ferocious-looking old brute. He growled and snapped savagely at the dogs, and attempted to hug one of them to death. But they teased him so much that he scrambled up into a moss-covered pine tree. Brown and Richardson did not have their guns with them, so they proposed to bring bruin down by fire. A match was applied to the moss covering of the tree, and the blaze climbed rapidly to where the bear was resting. It was a most uncomfortable position, and in order to get out of it he climbed higher into the tree, but it was impossible to escape the heat. Uttering a blood-curdling growl, old grizzly closed his eyes, threw his paws around the tree and came sliding to the ground, tail first, through the flames. Brown attempted to lasso the old fellow, but he ducked his head so rapidly that it was impossible to do so. When the bear reached the ground he ran to the bushes, the dogs following him closely. The dogs grabbed him by the throat, when he raised upon his haunches, caught one of them between his powerful paws and crushed the life out of him. Brown and Richardson then rode up, and succeeded in lassoing the bear, Brown's rope getting him by a hind leg, and Richardson's going over his head. They then stretched him out, fastened the ropes to trees and dispatched him with their knives. The bear weighed 750 pounds.

The locality is said to abound in bear and deer, and our sportsmen who like to go gunning for big game would strike a perfect Paradise up there. Besides that kind of sport, the trout streams are near at hand, and great enjoyment could be had casting a line.—*Chico Chronicle.*

A DEMOCRATIC DISPUTE.—The Executive Committee of the Democratic State Committee met this afternoon for the purpose of hearing an appeal by Democratic Clubs 23 and 26 of the Twenty-fourth Senatorial District from the action of the County Committee in issuing charters to those clubs. A faction war prevails in the Twenty-fourth District, and during the late organization of the clubs one faction carried five out of the six, including Nos. 23 and 26. The defeated party appealed to the County Committee from the result, alleging fraud, bulldozing and roll-stuffing. The committee appointed a sub-committee of inquiry, which reported that the charges were unfounded, and upon that report charters were ordered issued to the clubs. From this order the appeal is taken, as allowed by the plan of the Committee of Fifty, under which the clubs are organized. The Executive Committee was presided over by W. D. English. The only persons admitted to the hearing were three from the County Committee and three from each of the factions. The victorious factions allege that the appellants have lost their rights by not complying with the laws of the party, one of which is that they shall not belong to any secret organization. It is alleged that since their defeat the beaten faction has organized a secret club.—*S. F. Bulletin.*

GOING AHEAD.—Work on the Colusa and Lake Railroad is going forward rapidly, and will, without doubt, be running inside of sixty days. The proposed Sacramento Valley, Lake and Mendocino Railroad will run from Woodland north 120 miles to connect with a road now building from Fort Bragg into the interior for 25 miles. These little arteries will open up a large local trade, and benefit their respective communities greatly.—*Marysville Appeal.*

Smith's Tonic Syrup.

FOR THE CURE OF

FEVER AND AGUE,

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

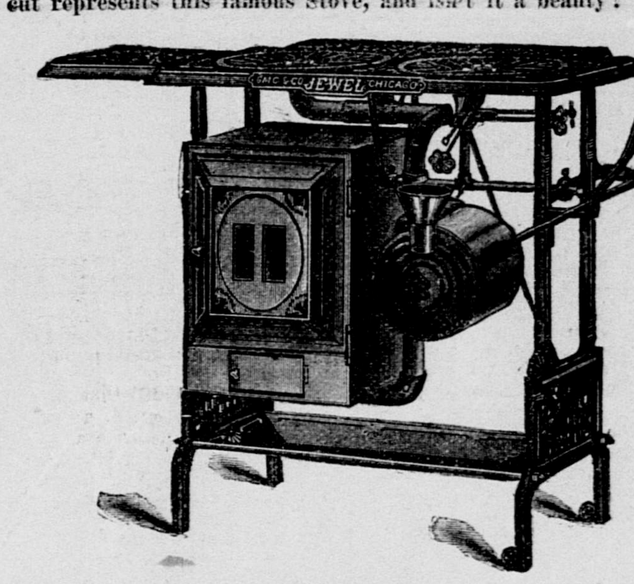
We feel grateful to our many patrons for their patience in waiting for our shipments of Two Cars of the "JEWEL" NON-EXPLOSIVE VAPOR STOVES, which have been received TO-DAY, and we promise now to fill all back orders as soon as they can be got off. This delay has been caused by the Manufacturers not being able to keep up with their orders; but we have their word that this will not occur again. If the public, and more especially the Housekeepers of this State, but knew what a blessing was in their reach for a little money, we would venture to say not one in ten would be without a "JEWEL" VAPOR STOVE. Think of it Wives, Mothers and Sweethearts, the "JEWEL" throws out no heat, gives no smell; there are no ashes to take up, no wood to chop, no kindling to cut, no stove to black. In fact, the "JEWEL" makes cooking a pleasure, and all this will only cost you $10—for we have a number of TWO-HOLE "JEWELS" at this price, from that to $22. This cut represents this famous Stove, and isn't it a beauty?



Receipt to Health, Wealth and Happiness!

The three great elementary principles of every healthy community, as well as individuals, are Pure Air, Perfect Cleanliness, and Well Cooked Food on a "JEWEL" VAPOR STOVE.

To be always well is an attainable blessing; the uniform result of self-denial, temperance, and an industrious life.

Sameness of food is a great drawback to health; for Nature craves a variety of elements.

A sure cure for Rheumatism!—Take a piece of 18 copper wire, and bend it around the afflicted part, so that the wire comes in contact with the flesh, but not to press it. Let it remain for months, if necessary. This remedy hardly or ever fails.

The almost universal cause of Dyspepsia is eating too fast, too often, and too much.

That man lives longest who wisely divides his time of life between brain and muscle.

Never take a cold bath while tired, nor less than two hours after a meal.

Marriage is a natural condition of man; without it no man or woman ever feels settled in life.

When you are well, let yourself alone; you can never be better than well.

Go to bed at a regular hour, leave it as soon as you wake up, and do not sleep a moment in day time. This will give your system all the rest it requires.

The Fruit Committee, G. A. R.

There was a good attendance of the Fruit Committee at their meeting held yesterday at 1 P. M., at the office of W. P. Coleman. R. D. Stephens in the chair. Much interest was shown in the success of this branch of the reception.

A resolution was adopted requesting the Supervisors to make a suitable appropriation for the entertainment of the G. A. R. on August 11th. The following names previously omitted were added to the Fruit Committees at the following places: W. F. Crowmiller, Penryn; J. H. Burnham, C. Ecklon, Folsom; H. Mette, Mormon Island; Mr. Gillet, Nevada City; Senator Pirfscher, Auburn; Senator F. De Lon, Novato, Marin county; Mr. Le Franc, San Jose; Arpad Haraszthy, San Francisco; Mr. Portal, San Jose.

The meeting adjourned to meet on August 2d, at 1 P. M., at W. P. Coleman's office, 325 J street. It is desirable that all parties interested in this feature of the reception be represented either in person or by letter, giving reliable information as to what the committee can depend upon with regard to the fruit supply for the occasion.

G. A. R. Reception Committees.

The G. A. R. Public Decoration Committee, F. F. Tebbets Chairman, met at the Golden Eagle Hotel last evening. The following sub-committees on decorations were appointed:

First Precinct—S. Morris, Isadore Townsend, Captain S. F. Graves, J. R. Hodson, Wm. Land.

Second Precinct—Colonel W. B. Burtis, E. A. Boyyer, Jerry Payne, Chas. Sellinger, J. C. Sepulveda.

Third Precinct—C. A. Sawtelle, G. W. Jackson, John Barrett, E. R. Gogings, Frank Ruhstaller.

Fourth Precinct—M. E. Gates, Clay W. Chipman, John Conran, Charles Jenkins, C. H. Cummings.

The committee will meet again at the same place next Monday evening.

The Committee on Domestic Hospitality held an enthusiastic meeting last evening at the office of E. K. Alsip & Co., on Fourth street. The Chairman appointed his canvassing committees.

SUN-DRIED APRICOTS.—G. S. Brown, of Vacaville, was in the city yesterday and exhibited samples of sun-dried apricots, which were very fine. He states that they are worth 17 cents per pound dried, but that even that price does not equal what they brought green this season, as it takes from five to six pounds of the green fruit to make one when dried. The best quality will make a pound of the dried fruit from five of the green, but less choice in quality will require six pounds. Mr. Brown states that the fruit dried nicely in two days, a third day being given after gathered and placed in a shady place. This indicates that no expensive kind of dryers are necessary, as the samples shown were simply spread upon boards, and are as tempting in appearance as could be desired.

DEATH OF AN OLD RESIDENT.—John F. McCauley, who has been a resident of Sacramento county since early in the '50s, and proprietor of a large portion of the Anastecio Chabolla Grant, having purchased William Hick's interest in 1868, died at his residence, at Hicksville, early yesterday morning, having been gradually breaking up for some time. He was a native of Virginia, aged 77 years. His boyhood was passed in Missouri. At the conclusion of the Mexican war, in which he took part, he came to California. The funeral will take place at 3 P. M., to-day, from the Catholic Church at Galt. His estate is valued at figures in the vicinity of $300,000, and it is said that it is by will left to his wife. He leaves two children—Mrs. Alice M. Valensin and George McCauley.

SERIOUSLY INJURED.—John Cleave, better known as "English John," who has been driving a street car in this city for years, met with quite a serious mishap yesterday afternoon. While pushing his car back upon the turntable, at Twentieth and H streets, his horse became frightened at a basket which fell out of a passing express wagon, and entered upon a runaway, running into a fence, and Cleave was wedged in between the car and fence, receiving severe bruises on the body, legs and arms. He received immediate medical attention, and although severely hurt, no bones were broken, and it is thought his internal injuries are not of a serious nature.

EXECUTIVE PARDONS.—On Saturday last the Governor commuted sentences as follows: Thomas Dooley, who was convicted at the February term of 1884 of the Superior Court of San Francisco of burglary in the second degree, and sentenced to five years' imprisonment, to three years and six months, on the ground that he has labored faithfully and diligently and earned the recognition prescribed in Section 34 of the Statutes of 1880 to define, regulate and govern the State Prisons of California; Frank Martland, convicted in March, 1885, in San Francisco of grand larceny, and sentenced to three and a half years, to one year and six months on the same grounds.

THE HARLAN CASE.—Owing to the sudden and severe illness of Henry E. Highton, one of the attorneys for the defense—he being threatened with congestion of the brain—the Harlan case, at Woodland, was yesterday postponed until 1 P. M. to-day. The jurors, for the first time during the trial, were put in the Sheriff's custody, the Court holding that, under the circumstances, that must be done. Yesterday about sixty witnesses were subpenaed by the prosecution in this city, to be used in testifying as to Craft's character for peace and quietness, etc., and in rebuttal on other points.

POLICE COMMISSIONERS.

The McCormick Investigation a Farce—An Election To-morrow.

The Board of Police Commissioners met in the Police Court-room last evening, all the members present, Mayor Brown presiding. As the eligibility of McCormick to hold a position upon the force was to be considered, and the election of a successor to the late D. J. Kent to take place, the Court-room was filled with local politicians, among whom were noticed D. J. Considine, Thos. Fox, James Kelly, S. B. Lusk, J. Black, Jr., Wm. Gutenberger, Richard Singleton, Wm. Arlington, Frank Foster and Wm. McLaughlin.

Mayor Brown said the first thing in order was the investigation of the case of officer McCormack, whom it was charged had not resided in the State a sufficient length of time to be eligible to the office of policeman.

W. A. Anderson said he appeared as attorney for McCormack. If there was any charges on file he was ready to meet and answer them.

Mayor Brown said the parties who signed his petition were ordered to appear here. He did not think the investigation would amount to anything. He was satisfied with McCormack, and the investigation was only ordered because Judge Henry requested it. He asked Judge Henry if he had any statement to make.

Judge Henry said he was desirous of having all the signers of McCormack's petition present and get the facts from them regarding the length of time they had known Mr. McCormack, and then submit the case to the City Attorney for a legal opinion. He felt that it was the duty of the Police Commissioners to review its own acts in the matter and see whether or not they had acted wholly within the law or not. He desired to take testimony and then have the matter properly settled. No harm could come from such action. It was not only just to the community, but a duty incumbent upon the Board. He had no feeling against the officer, but the question of eligibility had been raised and it should be squarely met and disposed of.

Mr. Anderson again contended that specific charges should be presented, unless the Commissioners wished to act arbitrarily, which they had a right to do, as there was no appeal from their decision. It has been intimated that McCormack was not a resident of the city for two years, but he had learned that this was a mistake, McCormack having resided here six months over that time.

Judge Henry said that is the first time that we have heard from McCormack or his counsel that he has been a resident of this city two years.

Anderson—We are ready to prove it. Witnesses are in this room now that will testify to that fact.

Judge Henry—If he has resided here the required length of time, ought not this Board and the citizens of Sacramento to know it?

Mayor Brown—I propose to dismiss the investigation unless the Judge insists upon our proceeding with it.

Judge Henry—I believe McCormack is a good man, a respectable citizen, and an efficient officer, and I also believe we ought to review the matter. It seems to me to be in the line of our duty to do so, and to see whether or not we have acted legally. However, if the majority of the Board is against me, as it seems to be, I will acquiesce and not press the matter further.

Mayor Brown—We will not dismiss it if you ask us to go on with it; but I don't think anything will come out of it. I think he has been here a sufficient length of time.

Mr. Anderson—William Gutenberger, who is present, states that he has known McCormack two years and nine months.

Judge Henry, addressing Mr. Gutenberger, "Have you known Mr. McCormack two years?"

Mr. Gutenberger—Yes, I think so. He was working for the city about that length of time on the pumps during the administration of Street Commissioner Nielsen.

It would appear from the last statement that Mr. McCormack struck a job for the city on his arrival in the city and had been in the city's employ ever since.

The investigation was dismissed upon the votes of Mayor Brown and Chief Dillman, Judge Henry declining to vote.

The next thing in order was the election of a successor to the late J. D. Kent. The following named gentlemen put in petitions for the position: Walter B. Ferral, Geo. W. Armstrong, J. A. Klein, R. S. Frazee, Wm. Straeder and Charles A. Rowland. Frazee had two petitions, one of which was signed by fifty-six ex-soldiers and sailors.

The Chief moved at once to proceed to an election. Judge Henry moved to amend by postponing the election to Wednesday morning at 9 A. M. The amendment was carried, Brown and Henry voting aye, Dillman no.

The postponement, it is understood, was caused from the fact that at the caucus held early in the evening it was ascertained that each Commissioner had a favorite and would make no concessions. The three chosen ones are Ferral, Frazee and Rowland. It was hinted on the street last evening that Jerry N. Payne would be the compromise candidate at the election to-morrow.

To His Excellency Governor Stoneman.—DEAR SIR: I hereby tender my resignation of the office of Associate Justice of the Supreme Court of California, to take effect on the first day of October next.

Very respectfully your obedient servant,
E. M. ROSS.

THE Palace Hotel, San Francisco, is undoubtedly the finest, largest, completest, safest, and best kept first-class hotel in the world. Its table is incomparable, as may be readily believed, when we state that Schonewald, late of Del Monte, has this particular part under his direct supervision.

BRIEF NOTES.

Yolo county has the sum of $27,196 58 in her treasury.

The police are serving notices on property holders relative to weeds.

Deputy Sheriff McComber took Joe Nolan to Folsom yesterday, to serve his term of one year for burglary.

The steamer San Joaquin No. 3, arrived last evening from the upper Sacramento with a barge load of wood.

The next game of baseball of the league series in this city will be between the Altas and Greenhood & Morans.

Another special fruit train is being made up by members of the Fruit-Growers' Association, to be sent East this evening.

It is said that a couple of ranch teams that drive into the Third street market every morning from Yolo are very badly glandered.

Shad are getting to be quite numerous in the American. Some boys at Folsom caught 28 last Sunday, some of which were 18 inches in length.

The public school at Fourth and Q streets will be closed this afternoon out of respect to the memory of the deceased teacher, Miss Clara Jackson.

These arrests were made yesterday: Bridget Ryan, by officer McCormack, for battery; John and Emily Forester, by officer Farrell, for malicious mischief.

L. S. Taylor filed his bond as a Notary Public with the County Recorder yesterday, in the sum of $5,000, with James Bechtel and B. N. Bugbey as sureties.

The official bond of William Fay, recently elected a Constable for Brighton township by the Board of Supervisors, to fill a vacancy, was filed yesterday with the County Auditor, in the sum of $5,000, with T. C. Perkins and J. V. Robins as sureties.

Owing to the fact that a case had been set for trial in Department Two of the Superior Court that would occupy all of the day, the argument of the habeas corpus case of Austin, Avery and McGinniss was yesterday continued by Judge McFarland until to-day.

In yesterday's RECORD-UNION an item referred to a difficulty which occurred at Louis Montgaillard's grocery, Third and N streets, Sunday afternoon. By a typographical error, "N street" was printed "M street," and in consequence a grocer at Third and M streets wants to know "why this is thus."

At the meeting of the County Board of Equalization yesterday, Mr. McMullen announced the death of Miss Clara E. Jackson, daughter of a member of the Board, and moved that the Board adjourn until to-morrow at 10 A. M., out of respect to her memory. The motion was seconded by Mr. Bates, and adopted unanimously.

The Lower Lake *Bulletin* says of the Lake County Railroad project: "The *Bulletin* has but one opinion in this matter, and that is, that the Woodland road by 100 per cent. has a precedence over the Napa route, inasmuch as our grapes, wines and fruits can be sent without change of cars or break in transportation to Chicago, New York or New Orleans at much less cost than via San Francisco."

Yesterday morning George, the 7-year-old son of James Murphy, a barber on K street, near Fifth, came across his father's pistol in a drawer, and while he was examining it the weapon exploded, the ball striking his left leg below the knee and injuring the larger bone. Dr. Wiard cut it out on the opposite side from where it entered. The wound is a painful one and may prove serious.

President Fassett, of the Board of Supervisors, yesterday drew from the State Treasury the $12,958 70 due to the county for the support of aged indigents, and deposited it in the County Treasury for the benefit of the hospital fund. R. T. Devlin, of counsel for the county in the suit against the Gold Run Ditch and Mining Company, yesterday paid into the County Treasury the sum of $2,500, collected from the company as costs of suit.

The temperature at 4 A. M. yesterday was 5° warmer than the same hour the day before; at 8 A. M. it was 2° warmer; at 12 M., 1° warmer; at 4 P. M. it was 4° cooler, and at 7 P. M. it was 2.7° warmer than the day before, the highest being the same yesterday as the day before—that is, 95°—and the lowest yesterday was 58°, while the lowest the day before was only 61°. A cooler wave appears to be coming this way, as yesterday noon it was from 1° to 13° cooler in Washington Territory and Oregon than the twenty-four hours preceding; while at Keeler a thunder-storm precipitated .01 of an inch during the forenoon.

It is reported that a man and woman have been working a new scheme in the way of pocket-picking along the line of the railroad in the State of Nevada, and were arrested for their operations at Reno and Truckee. Their plan of procedure is for the woman to have a sudden attack of insanity, during which she manages to secure valuables from the pockets of those who go to her assistance, and later turns them over to her companion, who meanwhile has kept aloof from her, as if not acquainted, and occupied himself with endeavors to make his own fingers useful in lightening pockets. The couple may be expected this way soon, for they do their work so smoothly that it is doubtful whether they will be convicted at Truckee. They got clear at Reno.

Police Court.

In the Police Court yesterday W. Shoemaker, previously convicted of battery, was fined $5, or five days.....The cases of Andrew George and W. H. Rexford, for battery, were further continued until the 16th. .....Tom Gainor pleaded guilty of being a common drunkard, and was sent to the county jail for sixty days.....Thomas Consolation was tried on a charge of disturbing the peace and acquitted.....Louis Kavanaugh, arrested for being a common drunkard, pleaded guilty and was sentenced to thirty days in the county jail.....John McDade pleaded guilty of disturbing the peace and was fined $15, or fifteen days.....The case of Ah Dock, for battery, was dismissed on payment of costs by the prosecuting witness.....Henry Weberly's case of battery was continued until the 15th, as was also the charge of carrying a concealed weapon pending against him.....Josephine Machabo and Maria Jones, arrested for exhibiting, forfeited their deposits.....Bony Sewell pleaded guilty of vagrancy and was sent up for thirty days.....F. Smith pleaded guilty of petit larceny, in stealing $25 from a room-mate, and was fined $30, or thirty days.....William McCants and James Martin, for having been drunk, were assessed $10 each, with the usual alternative .....James Wilson, who attempted to rob officer McCormack of his watch, while that official and another were playing drunk and sleepy as a bait to catch him, was held to answer in $500 bail.....Joseph Shepard pleaded not guilty on a charge of being a vagrant, and the case was set for the 23d.....Mollie Johnson and Nellie Hayes, charged with petit larceny, were discharged, the prosecuting witness, a resident of Red Bluff, failing to appear.

Rancho Del Rio Stud Sale.

The third annual sale of thoroughbred horses from Theodore Winters' Rancho del Rio stud will be held at the stables of Chas. H. Shear, opposite the main entrance to Agricultural Park, next Thursday, at 1 P. M. There will be offered the thoroughbred mares Big Gun, dam of Jim Renwick; Ada C., the dam of Connor, Ballot Box and others; Farallones, by Norfolk; four and three-year-old fillies by Joe Hooker and Norfolk; three two-year-old colts by Joe Hooker and Norfolk; seven yearling colts and five fillies by Joe Hooker and Norfolk; four dams of winners and potent racing families; a colt and filly by Three Cheers. The animals are now on exhibition at Shear's stables. Colonel S. D. Bruce, publisher of the New York *Turf, Field and Farm* and author of the "American Stud Book," will act as auctioneer. The success attending the previous sales of stock from Mr. Winters' stables insures a large attendance, much interest and good prices on this occasion. California-bred horses are attracting so much attention in the East that it is probable several purchasers will be present from there to secure bargains for their stables.

GOOD PRICE FOR GRAPES.—Parties who are well acquainted with the vineyards in Napa and Sonoma, state that there is no such prospect for an unusual crop of grapes as had been represented. They claim that there will not be a full supply for the wineries, and that owners of wine cellars are already going to outlying districts and securing the output of entire vineyards. If this be true, it will insure high prices not only for wine grapes but for table varieties as well.

ST. HELENA, July 12th.—E. Frisby, agent of the Puget Sound Lumber Company, died very suddenly here, last evening, from heart disease.

SANTA ROSA, July 12th.—This morning Charles Cooper, who has been for several weeks on a visit to his uncle, J. M. Roncy, was found dead in bed. He was in good health and spirits last evening. NEVADA CITY, July 12th.—W. A. Johnson, for twenty-five years a farmer at North Bloomfield, who was here as a juror in the Superior Court to-day, died suddenly of rheumatism at a hotel in this city, where he was stopping.

A Strike at the Risdon Iron Works.

SAN FRANCISCO, July 12th.—To-day, shortly after noon, 110 men, employed at the Risdon Iron works picked up their tools, and after notifying the Superintendent that they were going to quit, quietly walked out of the shops. The proprietors of the works endeavored to keep the matter of the strike quiet, but it leaked out. "The strike was caused," said Mr. Moore, the Superintendent, to a reporter, "entirely by differences between the Trades Unions and Spreckels Bros. I attended a meeting of the Trades Unions two weeks ago and told them we had contracted to do the work for Spreckels and would be obliged to do it."

"Will you attempt to secure boilermakers outside of the Union to do the work?" asked the reporter.

"I can not say," said Mr. Moore, "but I will say that the work is there if the boilermakers want to work. As I explained when I appeared before them, they are not injuring the firm of Spreckels Bros. by their strike, but they are hurting us, because if we can not do the work it will be given to some one who can. The work will certainly be done, and Spreckels' steamers will leave on time, despite all strikes."

A Voter Saved.

SAN FRANCISCO, July 12th.—Henry Gilman, a jeweler 30 years of age, attempted to commit suicide this morning by jumping into the bay from Pacific-street wharf. He was rescued in time to prevent his being drowned. He has been out of work lately and has also been drinking heavily.

Depression Among Farmers.

MARYSVILLE, July 12th.—As the thrashing season advances the fact is developed that the north winds of June 10th and 12th did much greater damage by shelling out grain than was estimated by the farmers. This, together with other drawbacks of the season, has reduced the yield to less than 50 per cent of an average crop in Sutter and Yuba counties. This circumstance, in connection with the low price of grain, has a depressing effect on the farming community and business interests generally.

Petaluma Schools.

PETALUMA, July 12th.—The public schools opened to-day, with Professor A. G. Burnett Principal of the High School, and Professor Cromwell Principal of the Grammar School. The same teachers were continued.

The Sheriff learned by telegraph that the team belonged to S. G. Sresovich, a fruit dealer at 413 Washington street, San Francisco. French says he found it on the streets in San Francisco.

The Chronic Insane Hospital.

SAN JOSE, July 12th.—Only three bids were received this morning for building a hospital for the chronic insane, as follows: A. L. McIlvain, $165,800; E. A. Van Dalsen, $155,900; J. D. Stewart, $183,384. Eleven other bidders, mostly from San Francisco, refused to bid, and asked extension of time to rectify alleged impossible and ambiguous specifications, the most important being that the time for completing the brickwork is too short. The request was denied, as they had had opportunity before to make objection. The bids were taken under consideration till 2 P. M.

Sudden Illness of Lawyer Henry E. Highton.

WOODLAND, July 12th.—When the Harlan case was called in the Superior Court this afternoon, Judge J. C. Ball announced that it would be impossible for the defense to proceed, as Henry E. Highton is ill and threatened with congestion of the brain. Defense therefore asked for a continuance until to-morrow afternoon at 1 o'clock. The District Attorney concurred and the adjournment was taken. To the surprise of the jury, the Sheriff was sworn and the jurors placed in his charge. One of the jurors objected to this, but the Judge said: "Under the circumstances, this must be done." Judge Ball agreed, for the defense, that the jurors might go without restriction, but the Judge did not rescind the order, however.

PORTLAND, July 12th.—The discovery of the dead bodies of Otto Dupont and that of his son Willie Dupont, aged 8 years, was made at 1 o'clock this afternoon at their residence, 1100 C street. Neither bore marks of violence. A letter was found signed by Dupont, stating that he had poisoned his boy and then himself. Dupont was an Alsatian, a barber by trade, and aged 35. Fatal Result of a Feud.

PORTLAND, July 12th.—A quarrel has been going on for some time between two young men named LaGore and a man named Bennett, near Summerville. On Saturday the quarrel came to a fatal termination, one of the LaGore boys being shot by Bennett, who was in concealment on the side of the road. The main cause that led to the shooting was that Bennett was beaten cruelly some weeks since by the LaGore boys, while in a feeble condition, the result of a long spell of sickness. His persecutors went so far as to knock his teeth out with a rock, and then bruised and battered his face in an inhuman manner.

Look in the near future, you people of Happy Valley. Beneath the noonday shade of your own fig tree; surrounded by your little ones or any whom you love; fed by all the fruits of the tropic; quaffing from the cup dipped from the pure mountain brook which ripples past your door; beneath the blue dome of heaven which spans a pure and God-given atmosphere; surrounded by gigantic mountains, clothed with eternal robes of snow, which flash back and forth each to each the glimmering rays of the sun, and stand forth to your gaze a perpetual reminder of the inspiration of the Deity which spans the world. And when you look upon these silent peaks to the east, and view the golden halo of glory which surrounds them at the setting of the sun, which bids you and me a warm good-night, let your orison be: "I thank the Almighty that our lot is cast in this pleasant place."

SAN FRANCISCO ITEMS.

During the past week 465 immigrants arrived in the State.

Typographical Union No. 86 has been established in Oakland.

James Burgess, a seaman on the ship Jabez Howes, was drowned at sea in April.

Joseph Lewis fell from the Berkeley train Sunday, and received a severe concussion of the brain.

Johanna Terhn, a German girl, attempted suicide yesterday in the bay. Disappointed love was the cause.

Albert Kohler, a fourteen-year-old boy, shot himself accidentally at San Rafael on Sunday with a toy pistol. The wound is not serious.

The man whose body was found floating in the bay last Friday night was identified as George Harmon, who had acted as pantryman for some time at the Bonanza House. It is believed that he committed suicide.

The scalpers are taking a hand in the local ticket business, and claim to be selling one-fourth of the tickets used between San Francisco and such points as Fresno, Tulare, Mojave, Los Angeles, San Diego and San Bernardino.

The representative of the Immigration Bureau who has been examining Government land in the region north of the Blue Lakes, in Lake county, writes that he finds it "a beautiful country, and the air delicious." The land is well watered, and the association classes it among the most desirable public land in the State.

Charle Gillar and Luigi Mencino, two employes at the Pacific Rolling Mills, at the Potrero, were removing some dirt from the bottom of the elevator shaft at the works Sunday morning, when the gearing suddenly gave way and the elevator came down upon them with a rush and crushed them to the ground. Mencino escaped with a few bruises, but it is feared that Gillar is injured internally.

The Physiology of the Liver.

The liver is the largest secreting organ in the human body, and the bile which it secretes is more liable to vitiation and misdirection from its proper channels than any other of the animal fluids. Luckily for the bilious, however, there is an unfailing source of relief from liver complaint, namely, Hostetter's Stomach Bitters, a medicine which for over a quarter of a century has been achieving thorough cures of the above mentioned ailments, fever and ague, dyspepsia, bowel complaints, rheumatic and kidney affection, and disorders involving loss of nervous vigor. It is, moreover, a preventive of malarial disease, and affords protection to thousands of persons residing in districts of country where that dire scourge is prevalent. As a remedy adapted to the medicinal requirements of families, it is supremely desirable, and as a means of fortifying a debilitated system, it is thoroughly to be depended upon.

GENERAL CHIPMAN'S ORCHARD.—E. Crotzer completed pruning Gen. N. P. Chipman's orchard a few days since and found it in excellent condition and entirely free from insect pests. This speaks well for Tehama county, because there are but few counties in the State where fruit is grown to any considerable extent that the trees are not infested with several kinds of fruit pests. The General has 1,000 three-year-old and 1,000 two-year-old apricot, 4,000 prunes one and two year old, and 2,500 bearing peach trees. There are also 500 other trees, pear, apple, etc., bearing fruit this year. There are fifteen acres of vineyard, 10,200 bearing vines, comprising muscat, malaga, muscatel and zinfandel. The vines are full of grapes and the quality promises to be very good.—*Red Bluff Sentinel.*

RAVLIN A SPIRITUALIST.—Rev. N. F. Ravlin, formerly a Baptist preacher at San Jose and late State Organizer of the Anti-Chinese Association, has become an expounder of spiritualism, and is announced to deliver a series of Sunday-evening discourses at the Hamilton Church in Oakland during July and August. Last evening he lectured on "The Ministrations of Angels, or Glimpses of the Spiritual World." Among the subjects announced are, "What Constitutes Heaven and Where Is It?" and "What Hell Is and How to Get There."—*S. F. Examiner.*

RAPID MOUNTAIN RIDING.—T. G. Blinn, of the Highland Park Wheelmen, left Oakland at 5 A. M. last Friday on his Victor bicycle. At 9 A. M. he took breakfast at San Jose, and then started over the Santa Cruz mountains, reaching the summit at noon. He stopped there an hour for rest and lunch, and reached Santa Cruz, via Soquel, at 6:10 P. M.; distance, 90 miles; actual riding time, 11 hours 10 minutes. This is the first time that a wheelman has ridden over this route in one day.—*S. F. Call.*

MINE SOLD.—The Spring Valley mine at Cherokee has changed hands. Formerly it was owned by Eastern men, who had to be consulted whenever the canal levees needed repairs, regardless of delay at times when prompt action was needed. California capitalists purchased it the first of the week for the sum of $1,500,000.—*Biggs Independent.*

"Throw Physic to the Dogs"

When it is the old-fashioned blue mass, blue pill sort, and insist on using Dr. Pierce's "Pleasant Purgative Pellets," a modern medical luxury, being small, sugar-coated granules, containing the active principles of certain roots and herbs, and which will be found to contain as much cathartic power as any of the old-fashioned, larger pills, without the latter's violent, drastic effect. The pellets operate thoroughly but harmlessly, establishing a permanently healthy action of the stomach and bowels, and as as anti-bilious remedy are unequaled.

How to Shorten Life.

The receipt is simple. You have only to take a violent cold, and neglect it. Abernethy, the great English surgeon, asked a lady who told him she only had a cough: "What would you have? The plague?" Beware of "only coughs." The worst cases can, however, be cured by Dr. Wm. Hall's Balsam for the Lungs. In Whooping Cough and Croup, it immediately allays irritation, and is sure to prevent a fatal termination of the disease. Sold by druggists.

BIG CROP ON THE LLANO SECO.—A larger crew is employed this year than ever before harvesting the crop on the Rancho Llano Seco. They are turning out a thousand sacks per day, and the wheat is all of good quality. The grain will be shipped down the river direct from the ranch to the Mission Dock warehouse, barges having already been ordered for that purpose. Llano Seco is managed this year by Elbert Shinn, who has made a most efficient foreman. The crop is large, and is being well taken care of under his supervision.—*Chico Enterprise.*

ALMOST every person has some form of scrofulous poison latent in his veins. When this poison develops in scrofulous sores, ulcers or eruptions, rheumatism or organic diseases, the suffering is terrible. Hence the gratitude of those who discover that Ayer's Sarsaparilla will eradicate this evil.

This POWDER never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall street, New York.

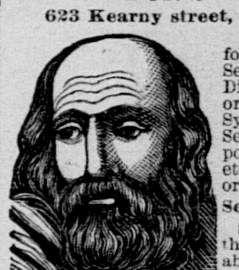
DR. GIBBON'S DISPENSARY,
623 Kearny street, San Francisco.



Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, Skin Diseases, etc., permanently cured or no charge.

Seminal Weakness. Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity.

CURED AT HOME.

Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. The Doctor cures when others fail. Try him. Mention the RECORD-UNION.
